

The
CacheSYSTEM[®]
CS Compact is
designed to provide a
powerful cash manage-
ment solution in the smallest
footprint possible. The CS Compact
can be conveniently located near point
of sale systems, in drive thru windows, in
retail kiosks, or any location where space is
limited.

CS COMPACT Safes:

► COLLECT & SECURE CASH

Once your cash is placed in an Armor safe, you can rest assured it will stay there. Our products are designed and constructed to rigorous standards to protect each point of access and reduce your risk of robbery.

► COUNT & VALIDATE FUNDS

Each safe is equipped with industry leading bill recognition technology that provides the highest level of first-time bill acceptance and unsurpassed counterfeit detection. Counted funds are secured in cassettes for easy transport and deposit. This series may be fitted with one or two bill validators.

► AUDIT & REPORT ACTIVITY

Every transaction is recorded and tracked through each user's PIN, providing a seamless audit trail. More than 30 different types of receipts and reports can be printed on the system's high-speed printer, including end-of-day activity, cash removal, and individual user reports.

► COMMUNICATE

The CacheSYSTEM® CS Compact integrates effortlessly with application service providers, allowing real-time access to analytics and transaction data remotely or from the back office.
